

Appl. No. : 10/004,543  
Filed : December 4, 2001

at least a first earphone, carried by a first earphone support for directing the first earphone towards a first ear of the wearer; and

at least one microphone, carried by a microphone support;

wherein the microphone support is connected to an orbital.

3. (New) A telecommunications enabled eyeglass as in Claim 2, further comprising a digital storage device.

4. (New) A telecommunications enabled eyeglass as in Claim 3, wherein the digital storage device comprises an MP3 storage device.

5. (New) A telecommunications enabled eyeglass as in Claim 2, wherein the power supply is rechargeable.

6. (New) A telecommunications enabled eyeglass as in Claim 2, wherein the power supply is replaceably carried by the support.

7. (New) A telecommunications enabled eyeglass as in Claim 2, further comprising a second earphone carried by a second earphone support.

8. (New) A telecommunications enabled eyeglass as in Claim 7, wherein the first and second earphone supports extend rearwardly from the front of the eyeglass.

9. (New) A telecommunications enabled eyeglass as in Claim 7, wherein the first and second earphone supports extend down from the support.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
